

## Verification Record — SS-31 40 mg

DRAFT / QA HOLD

### SAMPLE INFORMATION

AnalytiLabs Code	AL-VR-SS31-40MG-20260502-010
Verification Key	BLV-SS3140-20260502-D5832EE2
Record Scope	Documentation verification
Requestor	Document Control
Sample	SS-31 40 mg
Batch / Lot	Pending final lot confirmation
Supporting Docs	Retained internally

### PRODUCT PHOTO / LABEL EVIDENCE

Product photo attached for draft review.

### TESTS REQUESTED AND RESULTS

TEST / PARAMETER	REPORTED RESULT	UNIT / DETAIL	RECORD BASIS
Peptide identity / analyte	<b>SS-31</b>	Label claim: 40mg	Supporting documentation retained internally
Reported content / amount	<b>40.51 mg</b>	Transcribed exactly from retained documentation	Internal document-control record
Purity	<b>99.727%</b>	Reported purity	Internal document-control record
Photo / label evidence	Product photo attached for draft review.		

**Document control note:** This AnalytiLabs record is a formatted documentary verification record created from supporting documentation retained internally. It preserves extracted values and assigns an internal AnalytiLabs/Verification code for traceability. It does not claim that AnalytiLabs independently performed laboratory analysis unless separately supported by original laboratory records.

**Release status:** Draft only. Supporting documentation, exact product/lot mapping and authorized QA/legal signature are required before official release or publication.

## Internal Extract and Release Controls

DRAFT APPENDIX

Private source identifiers are intentionally excluded from this PDF and retained only in the controlled internal traceability map.

### CONTROLLED EXTRACT

#### CUSTOMER-FACING CONTROLLED EXTRACT

AnalytiLabs document code: AL-VR-SS31-40MG-20260502-010  
Verification key: BLV-SS3140-20260502-D5832EE2  
Record status: Draft / QA Hold  
Testing ordered: 13 APR 2026  
Sample received: 21 APR 2026  
Analysis conducted: 24 APR 2026

Product / sample: SS-31 40 mg  
Analyte / identity: SS-31  
Label claim: 40mg  
Reported amount: 40.51 mg  
Reported purity: 99.727%  
Photo note: Product photo attached for draft review.

Private source identifiers are excluded from this customer-facing draft and retained only in the controlled internal traceability map.

**QA caution:** Do not activate this record, add a final release signature, or publish it until supporting documentation, legal/regulatory review, exact product/lot match and authorized document owner approval are completed.
